Morin, Ronberg & Associates, 2000. Soft cover. Book Condition: New. Book Description: Greetings new golfer! Welcome to the most frustrating, infuriating, intimidating yet greatest of sports. Beware that, in taking up golf, your self-esteem is about to suffer irreparable damage. You have, no doubt, remarked, in scanning the myriad of available golf books, that the authors, all blessed with olympian reflexes and hand-eye coordination, first took up the sport before the age of ten. Insightfully, you have probably also concluded that there may be a communication gap between these venerated masters of the game and your own tired, ripened and athletically-challenged physique. Happily, you have just found the holy grail of golf wisdom for beginners. This book is about taking up golf - from a beginner's perspective. Like yourself, the author is a mere mediocre mortal who took up the game in his mature middle years and whose only previous athletic renown was winning a hula hoop contest in a church basement. There are two things to learn about golf - how to hit a ball and understanding the game. The former is best learned, not from a book, but on a range from a teaching pro. You must also learn about the game's culture, customs and conventions, which is what this book is all about. About the Author Prior to 'Duffer's Debut', writing was always a major cornerstone of Ted's professional career. As an air force engineering officer, a construction engineer, a principal in a management consulting firm and finally as a senior executive with the federal government, his solid writing skills proved essential in the preparation of clear, intelligible reports requiring complex issues be explained in simple terms. This skill, coupled with his enthusiasm and wit, has now been directed at Ted's passion for golf. He maintains that...
