Not illustrated. 1852 Excerpt: . usually contains, the process employed leaves unextracted from 1 to 2 per cent., or perhaps, on an average 1 per cent. Hence depositors are charged with two per cent., and this is credited to the silver account of the melter and refiner; the difference between 2 per cent, allowed to him, and 1 per cent., the average left in the gold, gives him the margin of one-third of one per cent, to mask his actual silver wastage. 68. It would, however, I believe, be impossible to determine by any reasoning upon the data known to me, what has probably been the actual silver wastage of the present melter and refiner; for the reason that, from November 14, 1851, to April 1, 1851, the mint could not perform the work required of it; and it consequently happened that large quantities of California gold were coined, without having been...
