CONSERVE WATER AND SAVE THE ENVIRONMENT WITH AN EASY TO USE HYDROPONIC SYSTEM Learn everything you need to know about building your own hydroponic system. This book is for the beginner gardening seeking to conserve water, save resources, and limit environmental pollution by building and buying a hydroponic gardening system for their home. We understand hydroponics can initially be a complicated technique that easily overwhelms beginners, so we've made our guide easily accessible to people of all experience levels. We've included tips and tricks to help get you started quickly, and covered all areas so you don't feel left in the dark. We want you to get started today, not only so you can start growing delicious and healthy fruits and vegetables for yourself, but so we can all play a part in promoting a healthier ecosystem. You will learn the benefits of growing plants hydroponically, and where the future of hydroponics lies. We'll examine the most popular hydroponic systems and discuss the benefits and drawbacks of each. We'll also explain how to build your own system at home, what makes a commercial system good, and what goes into a good nutrient mix for your hydroponic system. By the time you finish reading this book you are going to be able to grow any plants imaginable in a soilless environment. There is no limit to what you can grow hydroponically—herbs, lettuce, tomatoes, peppers, and even orange trees and blueberry bushes. Hydroponics is an extremely versatile gardening technique which is often overplayed as being complicated and technical. This couldn't be any further from the truth!
