## In-situ-FTIR-spectroscopic studies of organic acid monolayers on metal oxides in humid environments

By Michael Maxisch

Shaker Verlag Jun 2012, 2012. Buch. Book Condition: Neu. Neuware - A new in-situ setup combining ultra-high vacuum (UHV), plasma application, modern photoelastic-modulated-infrared-reflection-absorption-spectroscopy (PM-IRRAS) and quartz crystal microbalance (QCM) was developed to analyze the formation and stability of selfassembled monolayers (SAMs) on engineering metals in detail. At first the adsorption behaviour of different organophosphonic acids on nickel-titanium (NiTi) shape memory alloy (SMA) were analysed. PM-IRRAS prove that the binding mechanism is based on a mono- or bidental bond. In addition it was shown that an alkyl chain length of 17 CH<sub>2</sub> groups is required for the formation of a SAM, which is stable in aqueous environment. Furthermore in-situ measurements were undertaken to determine the formation, the barrier properties and the stability under high water activities of octadecylphosphonic acid (ODPA) and nonadecanoic acid (NDA) SAMs. PM-IRRAS reveal the self-assembly of both molecules on oxyhydroxide covered aluminium surfaces and prove their stability during exposure to humid air. For ODPA and NDA SAMs a strongly reduced amount of water - based on the inability of water to form hydrogen bonds to the low energy aliphatic surfaces - was observed. However, the ODPA monolayer covered surfaces did not show a significant inhibition of the...

### Reviews

*Comprehensive information! Its this sort of excellent read. I could possibly comprehended every little thing out of this published e pdf. You wont sense monotony at at any moment of your time (that's what catalogs are for about when you ask me).*

-- **Prof. Mauricio Howe III**

*This type of publication is almost everything and helped me looking forward and much more. I am quite late in start reading this one, but better then never. You wont really feel monotony at whenever you want of your own time (that's what catalogs are for relating to if you ask me).*
